

How to Login / Logout on/from the Ubuntu OS on NCI PC

Every time when you want to use Ubuntu Operating System on the NCI PCs you MUST perform the following stems in order to start on your PC the remote Ubuntu Operating System.

You must login on the remote Ubuntu Operating System using your student account.

When you have finished to use Ubuntu Operating System you must logout from the remote Ubuntu OS

Step 1: Start the Run application on the local NCI PC.

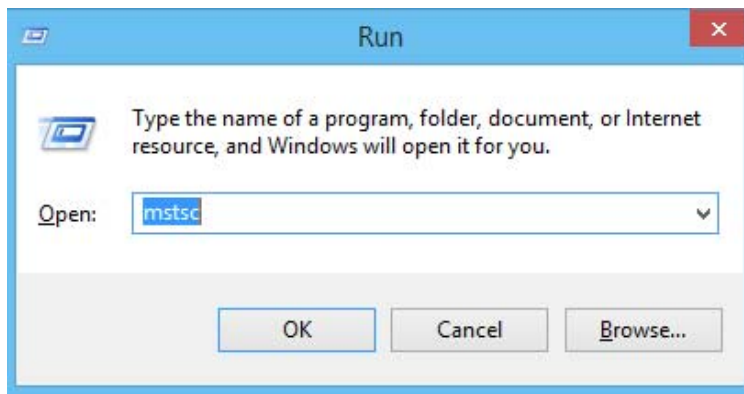

Click on the start Windows icon at the bottom left of your screen

Type in run in the search programme and files input area, at the bottom of the Windows menu. Press enter.

A Run windows will open.

Step 2: Start the mstsc application

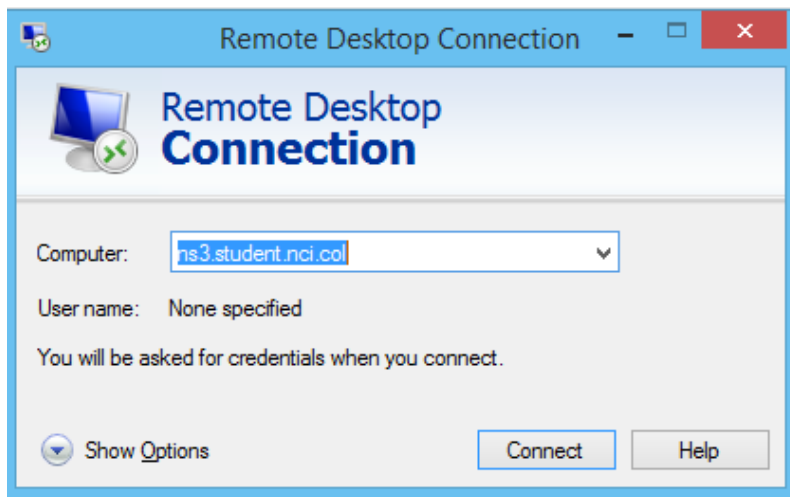

Type in **mstsc** in the run dialog in order to get the login windows to the Microsoft terminal services client. Click on the OK button

Step 3: Login on the Remote Desktop Connection

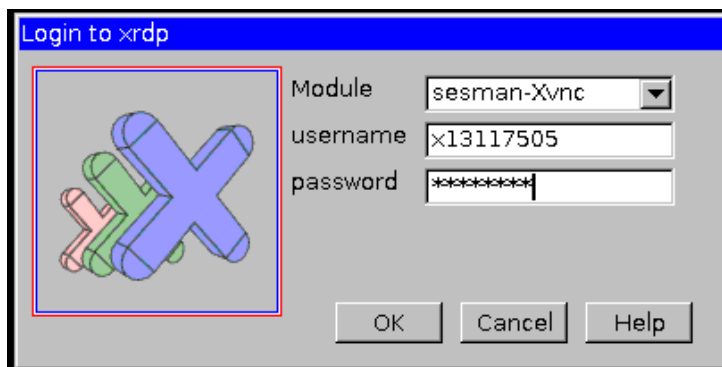

Enter the computer name **ns3.student.nci.col** in the Remote Desktop Connection windows. Then, click on Connect button.

You can also login proving the following computer name: **ns1.student.nci.col**

Step 4: Enter the user credentials

You should fill in the username and password fields by providing your student account number and login password.

Step 5: Use the GUI interface provided by the Ubuntu Operating System

You should now be logged into Ubuntu Server 14.04 LTS

Step 6: Logout from the Ubuntu Operating System

Use the Panel menu available at the top of the Ubuntu windows.

Select **System** option from the Panel menu and then **Shut Down** option.
